+ Speed comparison is for downloads only and is compared to 1.5 Mbps DSL. Maximum download speed: 3.5 Mbps. Maximum upload speed: 348 Kbps. Actual speeds may vary and are not guaranteed. Many factors affect speeds, including, without limitation, the number of workstations using a single connection. *As a result of network enhancements or upgrades, it is possible for your IP address to change periodically.

Available in limited Comcast wired and serviceable areas only. Professional installation charges apply. Rates vary according to service area. Service is subject to terms and conditions of Comcast High-Speed Internet Subscriber Agreement, and Pro addendums or the Comcast Workplace Master Services Agreement.
